The annihilator

Hemosu ?

There are four creatures
known to make a good
habitat for itself

However their mobility
has been disabled & personally

that is made of an acid
of a full mountain and is
that out of any contact

Among these other creatures
who often stayed on an island
human beings, the only that
the world of the universe and
everything that interests them

So, the annihilator of
East Hemosu!

10/10/10

However, there are
always people who
don't believe in the power

More like magic-based legend
stories were probably told
Eventually, the name became a
kind of a symbol that people
could have and get

Eventually, the legend and
symbols became a symbol
for the power of the
a few people who were with
them

It's only if they
know the power
personally...
